MAK5P

Passive line array speaker

MAK5P is a Line Array speaker.
Small, but with all characteristics of a conventional speaker.

MAK5P is satellite speaker containing four speakers of 5" delivering 400 W AES, horizontal and vertical coverage of 100°/20° and weighting only 12,4 kg.

This speaker is usually combined with our subwoofers MAK51A that are active subwoofers equipped with two-channel POWERSOFT amplifiers and our DSP processing.
Ideal solution for installations, small venues, mobile discotheques or monitoring situations.

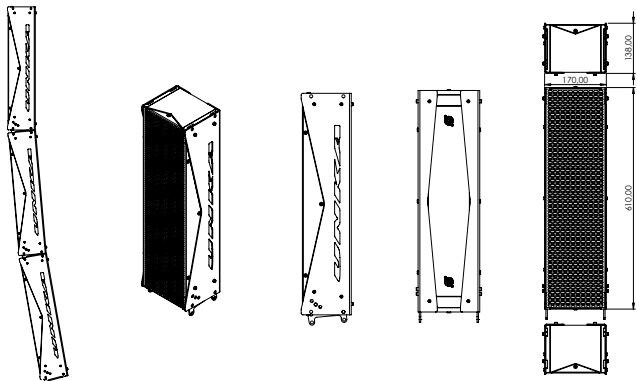

Suitable to be amplified by third party amplifiers, in case of installations, always under technical advice of our engineers.

APPLICATIONS

- Live Sound systems, indoors and outdoors.
- Conference Halls.
- Audio-Visual systems.
- Monitoring systems.
- Disco-Bars and Discotheques.
- Surround Sound Systems.
