**FORCE** *LH102P*

FORCE LH102A is a long-lasting active satellite speaker high performance, designed for medium and large spaces.  
It combines a 10" 500w aes speaker and two 1.75" tweeters. with Class D amplification and our DSP, which guarantees exceptional sound quality and power, includes FIR filters.

#### PRODUCT DESCRIPTION:

It has a very high size/power ratio. It is made of 15mm birch plywood, with a strong structure and low weight (20kg).

It uses 2 x 1,100w class D amplification and our DSP with 4 different presets.

FORCE LH102A is easy to use and is optimized for use in together with our Unka Sound subwoofers, forming powerful system systems for medium and large spaces

Optimization of our systems.

We have created several possibilities to mount our systems, according to the needs of our customers.

We are aware that we have clients who need absolute control over the system and clients who do not need this type of technology.

For this reason we have decided to create 2 FORCE LH102 systems, taking into account that their internal components are always the same, the only difference is power and control.

New addition of the new processor with FIR filters.

#### 1.- FORCE LH102A

It has a 2x1,100w power module, one channel for its own enclosure and the other channel to feed another FORCE LH102P subwoofer (on request). Without external control and with 4 presets.

#### 2.- FORCE LH102P

In this case, the LH102P is a passive cabinet that can be used with amplification how to be a slave to FORCE LH102A.
